

Greg Bronowski

I have been a land owner in Wild horse Ranch phase 1 for approximately 6 Years. I have served on the Board of directors where I coordinated with the New Mexico state OSE on water well compliance issues. I have been a volunteer on the Wild horse maintenance committee helping with material acquisition, well repairs and upgrades, general maintenance as well as road signage. I have been a volunteer at several of the community events in the past. My background includes starting and operating Custom Fabricators Inc., a family run business since 1996. I specialize in design/build fabrication, welding and machining in a variety of materials. I have experience in many areas of construction as well as project management. I was also selected to serve on a business/ economic advisory committee in Albuquerque while working with a government contract group. I would be honored to continue to use my background and skills to help improve the Wild horse ranch community as a director.

Thank you for your consideration.
