

Mitchell Henderson

I have been a resident of Wildhorse Ranch since 2010. I support the Landowners Association collecting funds to Grade the Roads so that all Landowners can have access to their property. I am against the Landowners Association getting into people's business, getting into their pocketbooks, and going onto their property. I am against the Association singling out any landowner and attacking them. I believe most landowners move out to such a remote place to be left alone. I am for leaving landowners alone.
